**INDEPENDENT AUDITOR'S REPORT**

The Honorable Mayor and City Council  
City of New Cordell, Oklahoma

***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of New Cordell, Oklahoma, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the City of New Cordell, Oklahoma's basic financial statements as listed in the Table of Contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of New Cordell, Oklahoma, as of June 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of New Cordell, Oklahoma's basic financial statements. The introductory section and combining and individual nonmajor fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued our report dated March 8, 2019, on our consideration of City of New Cordell, Oklahoma's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering City of New Cordell, Oklahoma's internal control over financial reporting and compliance.

BRITTON, KUYKENDALL & MILLER  
Certified Public Accountants

Weatherford, Oklahoma  
March 8, 2019

Our discussion and analysis of the City of New Cordell's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2018. Please read it in conjunction with the City's financial statements, which follow this section.

## **FINANCIAL HIGHLIGHTS**

- For the fiscal year ended June 30, 2018, the City's total net position decreased by \$84,698 or 1.57% from the prior year.
- During the year, City's expenses for governmental activities amounted to \$1,772,645 and were funded by program revenues of \$229,31 and further funded programs with taxes and other general revenues and transfers that totaled \$1,502,304.
- In the City's business-type activities, including utilities and economic development, program revenues exceeded expenses by \$440,525.
- At June 30, 2018, the General Fund reported an unassigned fund balance of \$44,464, a decrease of \$49,219.
- For budgetary reporting purposes, the General Fund reported actual revenues above final estimates of revenues by \$15,697 or 1.58%, while expenditures were under final appropriations by \$40,288 or 2.55%.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

The financial statements presented herein include all of the activities of the City of New Cordell (the "City") and its component units using the integrated approach as prescribed by GASB Statement No. 34. Included in this report are government-wide statements for each of two categories of activities- governmental and business-type. The government-wide financial statements present the complete financial picture of the City from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities and business type activities separately and combined. These statements include all assets of the City (including infrastructure capital assets) as well as all liabilities (including all long-term debt).

### **Reporting the City as a Whole**

#### **The Statement of Net Assets and the Statement of Activities**

One of the most frequently asked questions about the City's finances is, "Has the City's overall financial condition improved, declined or remained steady over the past year?" The Statement of Net Assets and the Statement of Activities report information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two government-wide statements report the City's net position and changes in them from the prior year. You can think of the City's net position – the difference between assets and liabilities- as one way to measure the City's financial condition, or position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving, deteriorating, or remaining steady.

However, you must consider other nonfinancial factors, such as changes in the City's tax base, the condition of the City's roads, and the quality of services to assess the overall health and performance of the City.

As mentioned above, in the Statement of Net Position and the Statement of Activities, we divide the City into two kinds of activities:

- **Governmental activities-** Most of the City's basic services are reported here, including the police, fire, general administration, streets, and parks. Sales taxes, franchise fees, fines, and state and federal grants finance most of these activities.

- Business-type activities- The City charges a fee to customers to help cover all or most of the cost of certain services it provides. The City's electric, water, wastewater, and sanitation activities are reported here.

## **Reporting the City's Most Significant Funds**

### **Fund Financial Statements**

The fund financial statements provide detailed information about the most significant funds- not the City as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants and other money.

*Governmental funds-* Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. The differences of results in the Governmental Fund financial statements to those in the Government-Wide financial statements are explained in a reconciliation following each Governmental Fund financial statement.

*Proprietary funds-* When the City charges customers for the services it provides- whether to outside customers or to other units of the City- these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Revenues, Expenses, and Changes in Fund Net Position. In fact, the City's enterprise funds are essentially the same as the business-type activities we report in the government-wide statements but provide more detail and additional information, such as cash flows.

## **A FINANCIAL ANALYSIS OF THE CITY AS A WHOLE**

### **Net Assets**

The City's combined net position decreased from \$5,388,395 to \$5,303,697 between fiscal years 2018 and 2017. Net position of both governmental activities and business-type activities showed a decrease when compared to prior year.

Economic development	-	-	58,940	62,919	-	-	3,979	7%
<b>Total expenses</b>	<b>1,737,345</b>	<b>1,772,645</b>	<b>3,533,628</b>	<b>3,775,152</b>	<b>35,300</b>	<b>2%</b>	<b>241,524</b>	<b>7%</b>
Excess (deficiency) before transfers	(858,954)	(576,674)	503,743	491,976	282,280	-33%	(11,767)	-2%
Transfers	570,452	535,652	(570,452)	(535,652)	(34,800)	-6%	34,800	-6%
<b>Increase (decrease) in net assets</b>	<b>\$ (288,502)</b>	<b>\$ (41,022)</b>	<b>\$ (66,709)</b>	<b>\$ (43,676)</b>	<b>\$ 247,480</b>	<b>-86%</b>	<b>\$ 23,033</b>	<b>-35%</b>

The City's governmental activities' decrease in net assets of \$41,022 is primarily attributable to increased non-cash depreciation expense. The business-type activities' decrease in net assets of \$43,676 is a function of the increased operating expense. The results indicate that, as a whole, the City's financial condition decreased from the prior year.

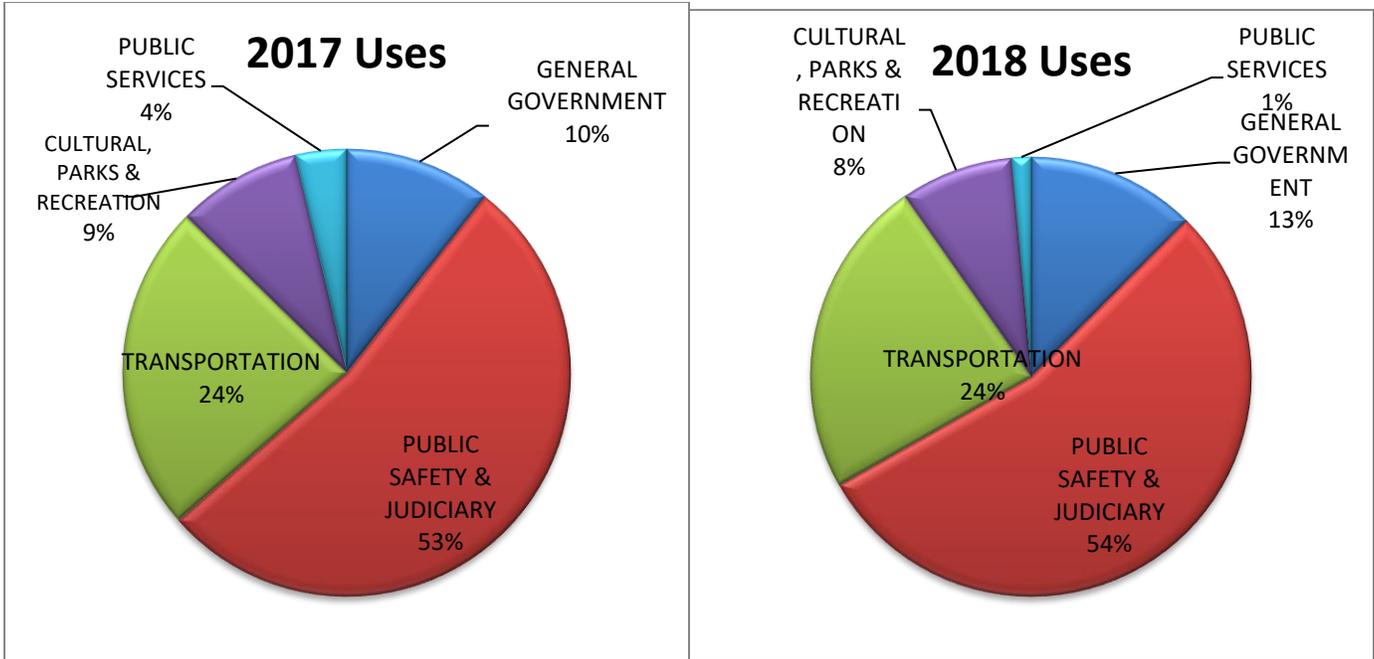

**Governmental Activities**

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants or contributions. All other governmental revenues are reported as general. It is important to note all taxes are classified as general revenue even if restricted for a specific purpose.

The City's governmental activities were funded and used as follows:

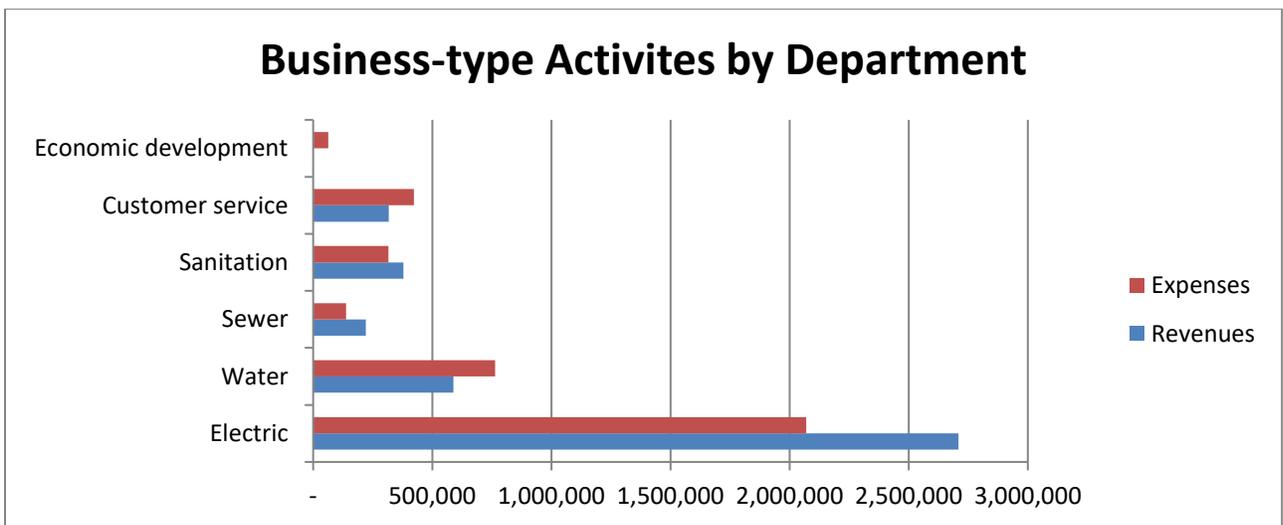

For the year ended June 30, 2017 and 2018, sales tax provided the most significant source of funding for governmental activities at 60% and 65%, respectively. Intergovernmental revenues decreased as a funding source in fiscal year 2018 due to fewer grants received in FY 2018.

Consistent between fiscal years, public safety and judiciary expenses were the largest use of governmental funds at 53% and 54% for 2017 and 2018, respectively.

**Business-type Activities**

Business-type activities are designed to cover their cost of operations. The following chart displays total revenues and total expenses of each business-type department for fiscal year 2017:

**A FINANCIAL ANALYSIS OF THE CITY'S FUNDS**

As the City completed its 2018 fiscal year, the governmental funds reported a combined fund balance of \$276,133 or a 23.23% decrease from the prior year. The enterprise funds reported combined net assets of \$3,162,758 or a 1.36% decrease from 2017.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

At the end of June 30, 2018, the City had \$3,815,649 invested in capital assets, net of related debt, including vehicles and equipment for police and fire operations, park facilities, and street activities in governmental activities and electric lines, water lines and sewer lines in business-type activities. See table below.

**Primary Government Capital Assets (net of accumulated depreciation)**

	<b>Governmental</b>		<b>Business-type</b>		<b>Total</b>

This year's more significant capital asset additions included:

- In Governmental Activities: \$8,793 for museum roof, \$11,370 for police software, printer & scanner, \$2,500 for police radar systems, \$3,600 for fire control panel, \$1,409 for fire 70" light bar, \$1,144 for a fire rescue saw, \$28,327 for ADA swimming pool improvements, \$15,213 for fire station improvements, and \$130,680 for a street shop.
- In Business-type Activities: \$1,850 for a crimp tool, \$3,328 for various transformers, \$3,712 for a subsurface water leak detector, \$35,340 for a 500 gallon vac trailer, \$3,082 for a turbine & control panel, \$2,756 for a work order software program, and \$9,000 for emergency generators for well systems.

**Long-Term Debt**

At year-end, the City had \$749,296 in outstanding long-term debt which represents a net increase of \$34,296 from the prior year. The City's Changes in long-term debt by type of debt are as follows:

**Primary Government Long-Term Debt**

	<b>Governmental</b>		<b>Business-type</b>		<b>Total</b>

<b>Totals</b>	<b><u>\$ -</u></b>	<b><u>\$ -</u></b>	<b><u>\$ 605,000</u></b>	<b><u>\$ 620,316</u></b>	<b><u>\$ 605,000</u></b>	<b><u>\$ 620,316</u></b>

**ECONOMIC FACTORS AND NEXT YEARS'S BUDGET AND RATES**

Oklahoma employment has shown gains this year led by the oil and gas industry but most sectors have added jobs. Oil and gas production is at a record high, but with considerably fewer rigs and workers than in 2017. State economies were hurt by low commodity prices but now are growing solidly.

The City must continue to make prudent financial management decisions and continue to progress, reinvest in infrastructure, and continue to plan for the long-term quality for the citizens of New Cordell. The 2018-2019 budget is conservative and provides the financial resources necessary to continue the current level of City services, meet the demand of infrastructure issues, and position the community for continued growth.

**CONTACTING THE CITY'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Clerk's Office at 101 East Main, Cordell, Oklahoma, 73632 or phone at (580) 832-3825.

---

Reconciliation of the change in fund balances - total governmental funds  
to the change in net position of governmental activities:

Net change in fund balances - total governmental funds \$ (83,555)  
Amounts reported for governmental activities in the Statement of Activities are  
different because:

Governmental funds report capital outlays as expenditures. However, in the  
statement of activities, the cost of those assets is allocated over their estimated  
useful lives and reported as depreciation expense.

Capital asset purchases capitalized	202,938	
Equipment disposed	-	
Depreciation expense	<u>(285,654)</u>	(82,716)

Government-Wide Statement of Activities report the cost of pension benefits earned net of employee contributions is reported as an element of pension. The fund financial statements report pension contributions as expenditures	125,249

(1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Organization**

The City of New Cordell, Oklahoma (the "City") is incorporated under the provisions of the State of Oklahoma per Executive Department Proclamation on May 22, 1908. The City operates under the statutory Aldermanic form of government. The City provides the following services: public safety (police and fire), streets, utility (sanitation, water, sewer, and electric) planning and zoning, public improvements, library, airport, parks, and general administration.

***The Reporting Entity***

The City, for financial purposes, includes all of the funds and account groups relevant to the operation of the City of New Cordell. The financial statements presented herein do not include agencies which have been formed under applicable state laws or separate and distinct units of government apart from the City of New Cordell.

The financial statements of the City include the City's primary government and component units over which the City exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships).

Due to restrictions of the state constitution relating to the issuance of municipal debt, public trusts are created to finance City services with revenue bonds or other non-general obligation financing and provide for multi-year contracting. Financing services provided by these public trusts are solely for the benefit of the City. Public trusts created to provide financing services are blended into the City's primary government as an integral part of City operations although retaining separate legal identity. Component units that do not meet the criteria from blending are reported discretely.

**Blended Component Units Reported with Primary Government**

New Cordell Utilities Authority - created October 6, 1986 by Declaration of Trust and as amended by Amendment to Declaration of Trust dated 01/08/88, under Title 60, OS (1981) Section 176-804. The City has beneficial interest and the City Council members serve as Trustees of the Authority. City employees carry on the activities of the Authority.

Cordell Development and Redevelopment Authority - The City Council members serve as trustees of the Authority.

The Cordell Hospital Authority and the Cordell Recreation Authority are excluded from the financial reporting entity because the City's accountability does not extend beyond making appointments. Audited financial statements are available from the related organization.

**B. Basis of Presentation**

***Government-Wide Financial Statements:***

The government-wide financial statements include the statement of net position and statement of activities. These statements report financial information for the City as a whole. The statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers. Individual funds are not displayed by the statements.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services with usage fees, fines and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. Taxes and other revenues sources not properly included with program revenues are reported as general revenues.

Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or utility services.

Certain reclassifications have been made to prior period balances in order to conform to the current period's presentation.

***Fund Financial Statements:***

Fund financial statements of the reporting entity are organized into funds each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The City has no fiduciary funds.

***Measurement Focus and Basis of Accounting***

The financial statements of the City are prepared in accordance with accounting principles generally accepted in the United States of America, GAAP. The City's reporting entity applies all relevant Governmental Accounting Standards Board (GASB) pronouncements.

The government-wide statements report using the economic resources measurements focus and the accrual basis of accounting. Proprietary financial statements and financial statements of the City's component units also report using the same focus and basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considered revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenses are recorded when the related fund liability is incurred.

Major revenue sources susceptible to accrual include: sales and use taxes, intergovernmental revenues, and investment income. In general, other revenues are recognized when cash is received.

Operating income reported in the proprietary fund financial statements includes revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of provided goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

***Restricted Assets***

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed. Restricted assets and liabilities current in nature are reported with current assets and current liabilities in the financial statements.

***Use of Estimates***

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect certain reporting amounts and disclosures; accordingly, actual results could differ from those estimates.

***Interfund Balances***

Generally, outstanding balances between funds reported and due to/due from other funds include outstanding charges by one fund to another for services or goods or miscellaneous receivables/payables between funds. Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year and are described as due to/due from other funds.

**C. Fund Types and Major Funds**

**Major Governmental Funds**

***General Fund***

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in another fund.

***Grant Fund***

Accounts for funds received for grant programs

***Special Revenue Funds***

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally or administratively restricted to expenditures for specified purposes. The reporting entity includes the following special revenue funds:

<u>FUND</u>	<u>BRIEF DESCRIPTION</u>
Street and Alley	Accounts for commercial vehicle tax and gasoline excise tax legally restricted for street and alley repairs and maintenance.
Cemetery Care	Accounts for 12 1/2% of cemetery revenue restricted by State law for cemetery capital improvements.
Fireman Fund	Accounts for collection of rural fire fighting fees and is administratively restricted for fire department needs.
Disaster Fund	Accounts for funds spent in the City's response to the October 9, 2001 tornado and the winter ice storm.

***Capital Project Fund***

This fund is used to account for financial resources restricted for the acquisition or construction of specific capital projects or items (other than those financed by proprietary funds). The City of New Cordell has expanded its use to include major repairs with full board approval.

**PROPRIETARY FUND TYPES**

***Enterprise Funds***

Enterprise Funds are used to account for business-type activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The reporting entity includes the following enterprises funds:

<u>FUND</u>	<u>BRIEF DESCRIPTION</u>
New Cordell Utilities Authority	Accounts for the activities of the authority in providing electric, water, wastewater, and solid waste services to the public.
Cordell Development & Redevelopment Authority	Accounts for economic development activities and for the operation of the theatre.

**D. Budgets and Budgetary Accounting**

***Budget Policy and Practice***

The City Administrator submits an annual budget to the City Council in accordance with the City Charter and the Oklahoma Municipal Budget Act. The budget is presented to the City Council for review, and public hearings are held to address priorities and the allocation of resources. In June, the City Council adopts the annual fiscal year budgets for City operating funds. Once approved, the City Council may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations. Public trusts submit budgets and other planning documents to their respective governing bodies. Other funds budgeted on a project-length basis are also subjected to the Council review and approval process.

***Budgetary Control***

Each fund's appropriated budget is prepared on a detailed line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and object class as follows: personal services, other services and charges, supplies, capital outlay, transfers, and debt service. This legal level of control is by department within a fund. Expenditures may not exceed appropriations at this level. Budget revisions at this level are subject to final review by the City Council. Within these control levels, management may transfer appropriations without Council approval. Revisions to the budget are normally made throughout the year.

***Budget Basis of Accounting***

The combined statement of revenues, expenditures and changes in fund balances (budget and actual) present comparisons of legally adopted budgets with actual data on a budgetary basis. The budgetary basis of accounting differs from GAAP in that the cash basis of accounting is used. Revenues are budgeted in the year receipt is expected; and expenditures, which include encumbrances, are budgeted in the year that the applicable purchase orders are expected to be issued. All appropriations (including encumbered) lapse at year-end; any open encumbrances to be honored in the subsequent budget year are reappropriated in the new year's budget. As a result, no reserve for encumbrances is reported at year-end.

The budget amounts shown in the financial statements are the final authorized amounts as revised during the year.

**E. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance**

**Cash and Investments**

For the purposes of the combined balance sheet and the statement of cash flows, "cash and cash equivalents" includes all demand deposits, savings accounts and certificates of deposits or short-term investments (including restricted assets) with an original maturity of three months or less. Deposits are stated at cost.

Investments are reported at fair value which is determined using market prices. Short-term investments are reported at cost, which approximates fair value. Securities traded on national or international exchanges are valued at the last reported sales price.

**Allowance for Uncollectible Accounts**

The City has established an allowance for collectible accounts based on management's prior experience. Management does not believe there are significant losses in excess of the allowance.

**Restricted Assets**

Restricted assets include current assets of proprietary fund types that are legally restricted as to their use. The restricted assets are primarily related investments restricted for customer refunds, and cash reserved for payment of the revenue bond obligation.

**Property, Plant and Equipment**

The accounting treatment over property, plant and equipment (fixed assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

**Government-Wide Statements:**

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. Prior to July 1, 2003, governmental funds' infrastructure assets were not capitalized. These assets (back to July 1, 1980) have been valued at estimated historical cost.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Proprietary fund and similar component unit fixed assets are recorded in the respective funds or component units and depreciated using the straight-line method. When proprietary fund fixed assets are disposed, the cost and applicable accumulated depreciation is removed from the respective accounts, and the resulting gain or loss is recorded in operations. Estimated useful lives, in years, for depreciable assets are as follows:

- |                                    |             |
|------------------------------------|-------------|
| • Buildings                        | 25-50 years |
| • Other improvements               | 10-50 years |
| • Machinery, furniture & equipment | 3-20 years  |
| • Infrastructure                   | 25-50 years |

**Fund Financial Statements:**

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period and so will *not* be recognized as an inflow of resources (revenue) until that time. An example of an item which arises only under a modified accrual basis of accounting that qualifies for reporting in this category would be unavailable revenue from property taxes and special assessments. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. Those amounts would be deferred and recognized as an inflow of resources in the period that the amounts become available. The City has items related to pension obligations that qualify as a deferred inflow of resources.

**Long-Term Debt**

In the government-wide, proprietary, and component unit financial statements, outstanding debt is reported as liabilities. Bond issuance costs, bond discounts or premiums, and the difference between the reacquisition price and the net carrying value of refunded debt are capitalized and amortized over the terms of the respective bonds using a method that approximates the effective interest method.

**Compensated Absences**

Full-time, permanent employees are granted vacation benefits in varying amount to specified maximums depending on tenure with the City. Sick leave accrues to full-time, permanent employees to specified maximums. Generally, after one year of service, employees are entitled to all accrued vacation leave upon termination. The estimated liabilities include salary-related payments. Compensated absences are reported as accrued in the government-wide, proprietary, and fiduciary financial statements.

**Equity Classifications**

***Fund Balance***

The governmental fund financial statements report reserved fund balance for amounts not available for appropriation or legally restricted for specified purposes beyond the restrictions applicable to the fund.

***Net Assets***

Both proprietary fund financial statements and government-wide financial statements report net assets. Amounts invested in capital assets, net of related debt and legally restricted amounts are separated from unrestricted net assets.

***Invested in capital assets, net of related debt***

The amount restricted consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

***Restricted net assets***

Amounts reported as restricted consist of net assets with constraints placed on their use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

***Governmental Fund Balances***

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within one of the fund balance categories list below:

***Nonspendable***

Fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),

***Restricted***

Fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

***Committed***

Fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City Commission, the City's highest level of decision-making authority,

***Assigned***

Fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

***Unassigned***

Fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications

**F. Revenues, Expenditures and Expenses**

***Sales Tax***

The City levied a three-cent sales tax on taxable sales within the City. The sales tax is collected by the Oklahoma Tax Commission and remitted to the City in the month following receipt by the Tax Commission. The sales tax received is recorded as sales tax revenue within the general fund.

***Charges for Services***

Program revenues reported with governmental activities include charges for services like permits and fees, park charges, and fines and forfeitures. Business-type activity charges for services include all operating income of proprietary funds.

***Grants and Contributions***

Governmental grants and contributions primarily consist of grants from Federal and state agencies. The nature of the grant determines if it is reported as operating or capital program revenues.

Business-type activity grants and contributions include donations from others as well as grants from Federal and state agencies.

***Interfund Transfers***

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. Recurring transfers for operational purposes are classified as "operating transfers", while non-recurring transfers of equity are reported as "residual equity transfers."

**(2) STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY**

By its nature as local government unit, the City and its component units are subject to various federal, state and local laws and contractual regulations. An analysis of the City's compliance with significant laws and regulations and demonstration of its stewardship over city resources follows:

**A. Deficit Fund Net Assets/Fund Balance**

Deficits resulting from accrual reporting do not constitute violations of Oklahoma State Statutes.

The City reported no deficit fund balances or net assets for the fiscal year.

**B. Budget Requirements**

For the year ended June 30, 2018, the City complied, in all material respects, with the applicable budget laws.

**C. Debt Covenants**

The 2011 Series bonds held by the Cordell Utility Authority contain a number of covenants which are related to financial matters. The most significant of which is the Debt Service Coverage, whereby, pledged revenues less operating expenses shall provide Net Revenues Available for Debt Service equal to 1.20 times average annual debt service on the respective notes for the Authority. As calculated on the Schedule Debt Service Coverage Requirements in the Other Supplementary Schedules section of this report, the City complied with this requirement.

**E. Revenue Restrictions**

The City has various restrictions placed over certain revenue sources from state or local or administrative requirements. The primary restricted revenue sources include:

<b>REVENUE SOURCE</b>	<b>LEGAL RESTRICTIONS OF USE</b>
Gasoline Excise/Commercial Vehicle Tax	Street and Alley Purposes
Airport Revenue	Airport Operations and Debt Service
Cemetery Revenue (12.5%)	Cemetery Capital Improvements

**(3) DETAIL NOTES ON TRANSACTION CLASSES/ACCOUNTS**

**A. Cash and Investments**

**Deposits**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's deposits are secured by collateral values at market or par, whichever is lower, less the amount covered by the Federal Deposit Insurance Corporation (FDIC). Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health and service.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes.

**Investments**

The City invests primarily in certificates of deposit.

<u>Types of Investments</u>	<u>Fair Value/ Carrying Amount</u>	<u>Cost</u>	<u>Average Credit Quality/ Ratings (1)</u>	<u>Weighted Average Days to Maturity (2)</u>
<b>Primary government</b>

**(4) RETIREMENT PLANS**

The City participates in two employee pension systems as follows:

<u>Name of Plan</u>	<u>Type of Plan</u>
Oklahoma Municipal Retirement Fund	Agent Multiple Employer – Defined Benefit Plan
Oklahoma Firefighters Pension and Retirement Fund	Cost Sharing Multiple Employer – Defined Benefit Plan

**A. Oklahoma Municipal Retirement Fund- Defined Benefit Plan**

Plan Description

Substantially all of the City's full-time employees, except firefighters, participate in a defined benefit pension plan adopted by the City and administered by the Oklahoma Municipal Retirement System (OMRF), which was established to administer pension plans for municipal employees. OMRF issues a publically available financial report that can be obtained at [www.okmrf.org](http://www.okmrf.org).

Benefits Provided

OMRF provides retirement, disability, and death benefits. Retirement benefits are determined as 3 percent of the employee's final average compensation multiplied by the employee's years of service; final average compensation is the average of the 5 highest consecutive years of salaries out of the last 10 years of service. Vesting requires 7 years of service. Members are eligible for normal retirement at age 65 with 7 years of vested service. The benefit is payable immediately. Early retirement is available after age 55 with 7 years of vested service. Early retirement benefits are paid at the normal retirement age, or reduced 5% per year for commencement prior to the normal retirement age.

Disability retirement is provided for member's total and permanent disability after 7 or more years of service. The accrued benefit is payable upon disablement without reduction for early payment.

In-service death benefits are payable after vesting at 50% of the accrued benefit until the death of the spouse or remarriage. If the member was not vested at the time of in-service death, member contributions are returned, if any, with interest.

Contributions

Required contribution rates are actuarially measured each year and authorized through City Ordinance. Employees are required to contribute 0.0% of paid salary. For the year ended June 30, 2018, the City's contribution was 11.97%. Contributions to the pension plan from the City were \$100,572 for the year ended June 30, 2018.

Membership

Membership in the plan is as follows:

	<u>As of July 1, 2016</u>
Inactive employees & beneficiaries receiving benefits	20
Inactive employees entitled to but not yet receiving benefits	3
Active participants	25
<b>Total</b>	<b>48</b>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPPRS

At June 30, 2018, the City reported an asset of \$210,079 for its proportionate share of the net pension asset. The net pension asset was measured as of July 1, 2017, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date. The City's proportion of the net pension asset was based on a projection of the City's long-term share of contributions to the pension plan relative to the projected contributions of all participating municipalities, actuarially determined.

Changes to the actuarial valuation between the measurement date of the net pension asset and the City's reporting dates are not expected to have a significant effect on the net pension liability.

For the year ended June 30, 2018, the City recognized pension expense of \$396. At June 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

**CITY OF NEW CORDELL, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ -	\$ 212,525
Changes of assumptions	26,794	-
Net difference between projected and actual earnings on pension plan investments	250,913	230,436
Changes in proportion and differences between City contributions and proportionate share of contributions	-	-
City contributions subsequent to the measurement date	100,572	-
<b>Total</b>	<b>\$ 378,279</b>	<b>\$ 442,961</b>

Other amounts reported deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Year ended June 30:**

	2019	\$	(115,112)
	2020		(11,508)
	2021		1,442
	2022		(40,076)
	2023		-
		<b>\$</b>	<b>(165,254)</b>

*Actuarial assumptions:* The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Salary increases	5.07 percent, average
Investment rate of return	7.50 percent, net of pension plan investment expense and inflation

Mortality rates were based on the UP 1994 with projected mortality improvement. Valuation rates are projected for mortality improvement by the Society of Actuaries' table AA based upon the employee's year of birth.

The actuarial assumptions used in the July 1, 2018 valuation were based on the results of an actuarial experience study for the period ended July 1, 2007 through June 30, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3.0%). Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of July 1, 2014 are summarized in the following table:

	<b>Target Allocation</b>	<b>Real Return</b>	<b>Weighted Return</b>
Large cap stocks - S&P 500	25%	5.80%	1.45%
Small/mid cap stocks - Russell 2500	10%	6.40%	64.00%
Long/short equity - MSCI ACWI	10%	5.00%	50.00%
International stocks - MSCI EAFE	20%	6.20%	1.24%
Fixed income bonds - Barclay's Capital Aggregate	30%	2.30%	69.00%
Real estate - NCREIF	5%	4.60%	23.00%
Cash equivalents - 3 month Treasury	0%	0.00%	0.00%
	100%		
		Average Real Return	4.75%
		Inflation	2.75%
		Long term expected return	7.50%

*Discount rate:* The discount rate used to measure the total pension liability was 7.50 percent, as the plan's net fiduciary position is projected to be sufficient to make projected benefit payments. The City has adopted a funding method that is designed to fund all benefits payable to participants over the course of the member's working career. Any differences between actual and expected experience are funded over a fixed period to ensure all funds necessary to pay benefits have been contributed to the trust before those benefits are payable. Therefore, no separate cash flow projection is required to determine the sufficiency of the plan assets. The 20 year tax free bond yield of 3.29% was used in the analysis.

**CITY OF NEW CORDELL, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

Changes in the Net Pension Liability

	<u>Total Pension Liability (a)</u>	<u>Plan Fiduciary Net Position (b)</u>	<u>Net Pension Liability (a) - (b)</u>
<b>Balances at July 1, 2016</b>	4,563,188	4,425,533	137,655
<b>Changes for the year:</b>

*Sensitivity of the City's proportionate share of the net pension liability (asset) to changes in the discount rate:*

The following presents the City's proportionate share of the net pension liability (asset) calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	<u>1% Decrease (6.5%)</u>	<u>Current Discount Rate (7.5%)</u>	<u>1% Increase (8.5%)</u>
City's proportionate share of the net pension liability/(asset)	340,797	(210,079)	(672,649)

*Pension plan fiduciary net position:* Detailed information about the pension plan's fiduciary net position is available in the separately issued OMRF financial report.

**B. Oklahoma Firefighters Pension and Retirement System**

Plan Description

The City of New Cordell, as the employer, participates in the Firefighters Pension & Retirement- a statewide, cost-sharing, multiple-employer defined benefit plan administered by the Oklahoma Firefighters Pension and Retirement System (FPRS). FPRS issues a publically available financial report that can be obtained at [www.ok.gov/FPRS](http://www.ok.gov/FPRS).

Benefits Provided

FPRS provides retirement, disability and death benefits to members of the plan.

Benefits for members hired prior to November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have completed 20 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$150.60 per month. Benefits vest with 10 years or more service.

Benefits for members hired after November 1, 2013 are determined as 2.5 percent of the employee's final average compensation times the employee's years of service and have reached the age of 50 or have completed 22 years of service, whichever is later. For volunteer firefighters, the monthly pension benefit for normal retirement is \$165.66 per month. Benefits vest with 11 years or more service.

All firefighters are eligible for immediate disability benefits. For paid firefighters, the disability in-the-line-of-duty benefit for firefighters with less than 20 years of service is equal to 50% of final average monthly compensation, based on the most recent 30 months of service. For firefighters with over 20 years of service, a disability in-the-line-of-duty is calculated based on 2.5% of final average monthly compensation, based on the most recent 30 months, per years of service, with a maximum of 30 years of service. For disabilities not-in-the-line-of-duty, the benefit is limited to only those with less than 20 years of service and is 50% of final average monthly compensation, based on the most recent 60-month salary as opposed to 30 months. For volunteer firefighters, the not-in-the-line-of-duty disability is also limited to only those with less than 20 years of service and is \$7.53 per year of service. For volunteer firefighters, the in-the-line-of-duty pension is \$150.60 with less than 20 years of service, or \$7.53 per year of service, with a maximum of 30 years.

**CITY OF NEW CORDELL, OKLAHOMA**  
**NOTES TO FINANCIAL STATEMENTS**  
**JUNE 30, 2018**

A \$5,000 lump sum death benefit is payable to the qualified spouse or designated recipient upon the participant's death. The \$5,000 death benefit does not apply to members electing the vested benefit.

Contributions

The State of Oklahoma has the authority to establish contribution obligations per state statute 11 O.S. Section 49.100 thru 49.143 et seq and are not based on actuarial calculations. Volunteer members have no contribution requirements; the City contributes \$60 per year for each volunteer. Employees are required to contribute 9% of their annual pay. Participating cities are required to contribute 14% of the employees' annual pay. Contributions to the pension plan from the City were \$11,752.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to OPPRS

At June 30, 2017, the City reported a liability of \$557,058 for its proportionate share of the net pension liability. The net pension net pension liability was measured as of July 1, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's contributions received by the pension plan relative to the total contributions received by pension plan for all participating employers as of June 30, 2017. The City's proportion was 0.044291%.

For the year ended June 30, 2017, the City recognized pension expense of \$61,568. At June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 74,413	\$ -
Changes of assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	49,643	65,167
Changes in proportion and differences between City contributions and proportionate share of contributions	-	-
City contributions subsequent to the measurement date	11,752	-
<b>Total</b>	<b>\$ 135,808</b>	<b>\$ 65,167</b>

Other amounts reported deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Year ended June 30:**

2018	\$ 4,341
2019	21,577
2020	16,137
2021	1,560
2022	12,486
Thereafter	2,788
	<b>\$ 58,889</b>

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of July 1, 2015 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation:	3%
Salary increases:	3.5% to 9.0% average, including inflation
Investment rate of return:	7.5% net of pension plan investment expense

Mortality rates were based on the RP2000 combined healthy with blue collar adjustment as appropriate, with adjustments for generational mortality improvement using scale AA for healthy lives and no mortality improvement for disabled lives.

The actuarial assumptions used in the July 1, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015, are summarized in the following table:

Inflation:	3%
Salary increases:	3.5% to 9.0% average, including inflation
Investment rate of return:	7.5% net of pension plan investment expense

Mortality rates were based on the RP2000 combined healthy with blue collar adjustment as appropriate, with adjustments for generational mortality improvement using scale AA for healthy lives and no mortality improvement for disabled lives.

The actuarial assumptions used in the July 1, 2015, valuation were based on the results of an actuarial experience study for the period July 1, 2007 to June 30, 2012.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2014, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Fixed income	20%	5.48%
Domestic equity	37%	9.61%
International equity	20%	9.24%
Real Estate	10%	7.76%
Other assets	13%	6.88%

**Discount Rate** – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, determined by State statutes. Projected cash flows also assume the State of Oklahoma will continue contributing 36% of the insurance premium, as established by statute. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate:** The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5 percent) or 1-percentage-point higher (8.5 percent) than the current rate:

	<u>1% Decrease (6.5%)</u>	<u>Current Discount Rate (7.5%)</u>	<u>1% Increase (8.5%)</u>
City's proportionate share of the net pension liability	730,779	557,058	409,834

**Pension plan fiduciary net position:** Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report of the FPRS; which can be located at [www.ok.gov/fprs](http://www.ok.gov/fprs).

**Other Post-Employment Benefits**

For the year ended June 30, 2018, the City provided no post-employment benefits (other than pension) to terminated employees.

**(5) COMMITMENTS AND CONTINGENCIES**

**A. Litigation**

The City is a party to various legal proceedings, which normally occur in the course of governmental operations. The financial statements do not include accrual or provisions for loss contingencies that may result from these proceedings. State statutes provide for the levy of an ad valorem tax over a three-year period by a City "Sinking Fund" for the payment of any court assessed judgment rendered against the City.

While the outcome of the above noted proceedings cannot be predicted, due to the insurance coverage maintained by the City and the State statute relating to judgments, the City feels that any settlement or judgment not covered by insurance would not have a material adverse effect on the financial condition of the City.

**B. Leasing Arrangements**

Pursuant to Ordinance No. 89-2, on January 16, 1989, the City entered into a 15 year lease with the Cordell Hospital Authority, leasing all hospital related real property, equipment and facilities plus future additions and improvements made by the City. Consideration of this lease is the installation and construction of improvements and operation of the facilities by the Authority. This lease was extended for 15 years beginning on January 17, 2004 and ending on January 17, 2019.

On June 20, 1989, a 50 year lease agreement dated December 5, 1988, was filed between the City and the New Cordell Utilities Authority. The City leased to the Authority all existing water and sanitary sewer system, related equipment, real property and unexplored leases and contracts. The Authority, for consideration of the lease, agrees to obtain financing and expend proceeds for extensions and improvements of facilities; and to set fair rates sufficient to pay debt service and facility operation expenses.

**C. Grant Program Involvement**

In the normal course of operations, the City participates in various federal or state grant/loan programs from year to year. The grant/loan programs are often subject to additional audits by agents of the granting or loaning agency, the purpose of which is to ensure compliance with the specific conditions of the grant or loan. Any liability for reimbursement, which may arise as a result of these audits, cannot be reasonably determined at this time, although it is believed the amount, if any, would not be material.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED  
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Mayor and City Council  
City of New Cordell, Oklahoma

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of New Cordell, Oklahoma, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise City of New Cordell, Oklahoma's basic financial statements, and have issued our report thereon dated March 8, 2019.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered City of New Cordell, Oklahoma's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether City of New Cordell, Oklahoma's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* in the United States of America.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
